Starry roof sound-absorbing board

www.e-v-c.com

product description **01-02**

Polyester sound-absorbing panel - Smooth finish **03-09**

Polyester sound-absorbing board - wool top **10-17**

Polyester sound-absorbing board - wool top **18-22**

case appreciation **23-34**

specifications **35-36**

Enterprise brief introduction **37-40**

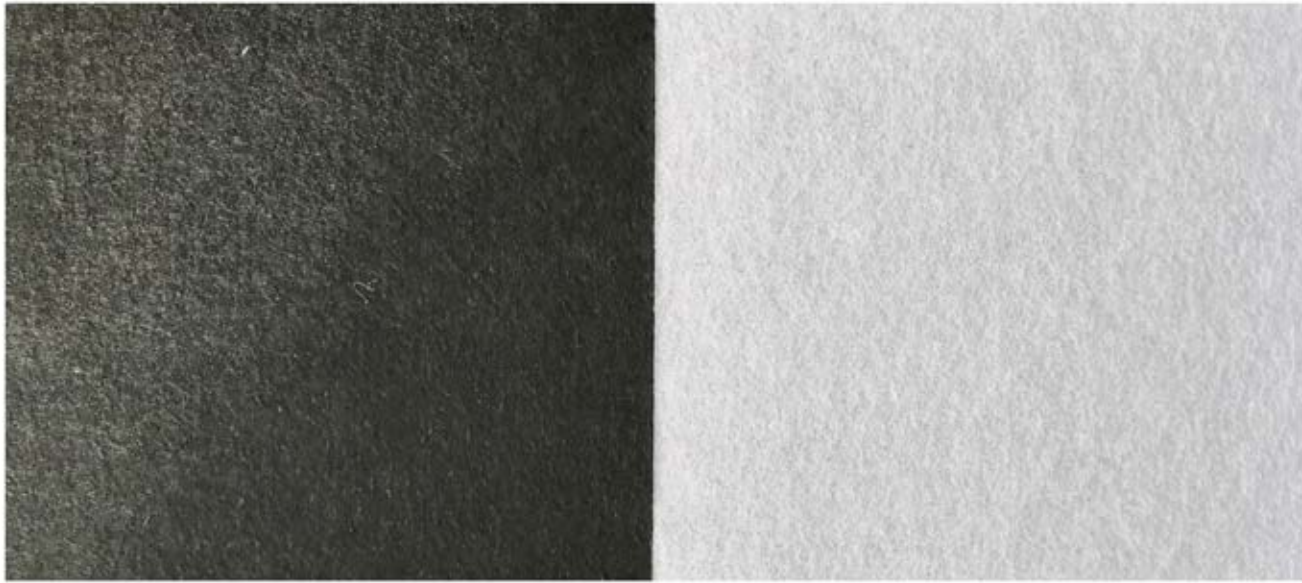

Product architecture **41-42**

The sound-absorbing board has good sound-absorbing and sound insulation effect, diverse colors, and the starry roof is made on the basis of it to achieve the effect of luminescent and pattern presentation. It integrates practical and appearance level in one, suitable for the space with acoustic requirements, such as recording studio, video room, cinema and so on

Polyester sound-absorbing board: smooth/hairy

Zenith: Full of stars

ordinary board (rough surface)	2420*1220*8mm	high quality baby's breath	9mm
high wuality board(rough surface)	2420*1220*9mm	gypsophila star	9mm
Star board(glossy)	2420*1220*8.5mm	gypsophila star	12mm
star board (glossy)	2420*1220*9mm		
star board (glossy)	2420*1220*12mm		
permanent solar panels (glossy)	2420*1220*9mm		

光面 Smooth surface

毛面 rough

Raw materials: The finish is high quality short fiber high density pressing, good flatness, relatively delicate, pinhole delicate, better sound absorption effect; The wool surface is ordinary short fiber pressed at high temperature

Density: smooth surface density is high, feel harder, wool surface feel soft; The smooth surface is heavier than the rough surface

Raw materials: The finish is high quality short fiber high density pressing, good flatness, relatively delicate, pinhole delicate, better sound absorption effect; The wool surface is ordinary short fiber pressed at high temperature

constalations simple version

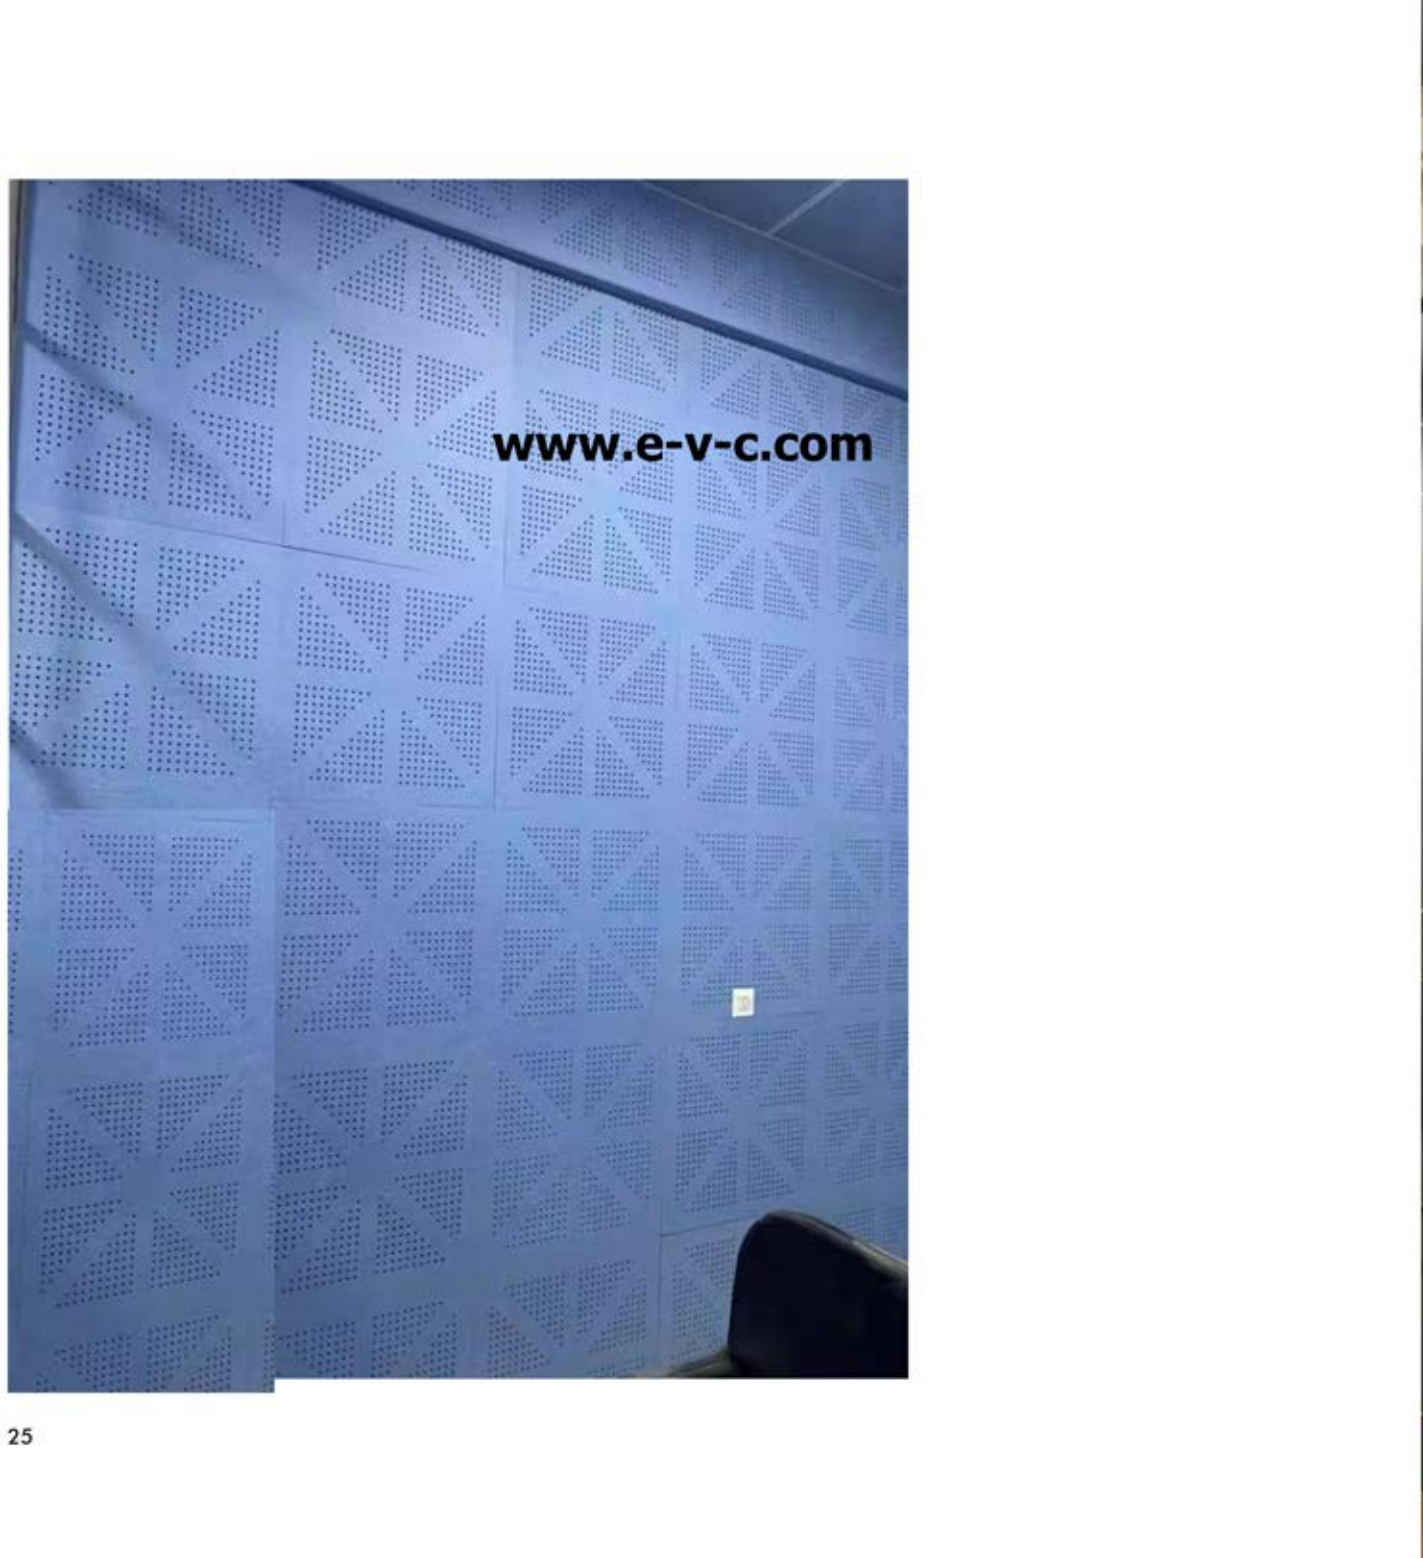

use/advantages

1. Sound absorption and noise reduction, suitable for theater, video room, KTV and other places
2. Environmental protection, non-toxic and tasteless
3. Beautiful and rich color, smooth surface texture, more choice space
4. Excellent quality and compact density
5. Create a comfortable and quiet space
6. Stable performance, not due to temperature and humidity and expansion
7. The starry sky is diversified in shape and beautiful and creative
8. Create indoor starry sky, real and bright

INSTALLATION INSTRUCTIONS

STARRY ROOF SOUND-ABSORBING BOARD

www.e-v-c.com

1. Inspection of goods

Check the package and product in good condition upon receipt.

2. Prepare tools

Air compressor

Nail gun

Straight nail gun

Wood square

3. The top surface of the installation of wood keel

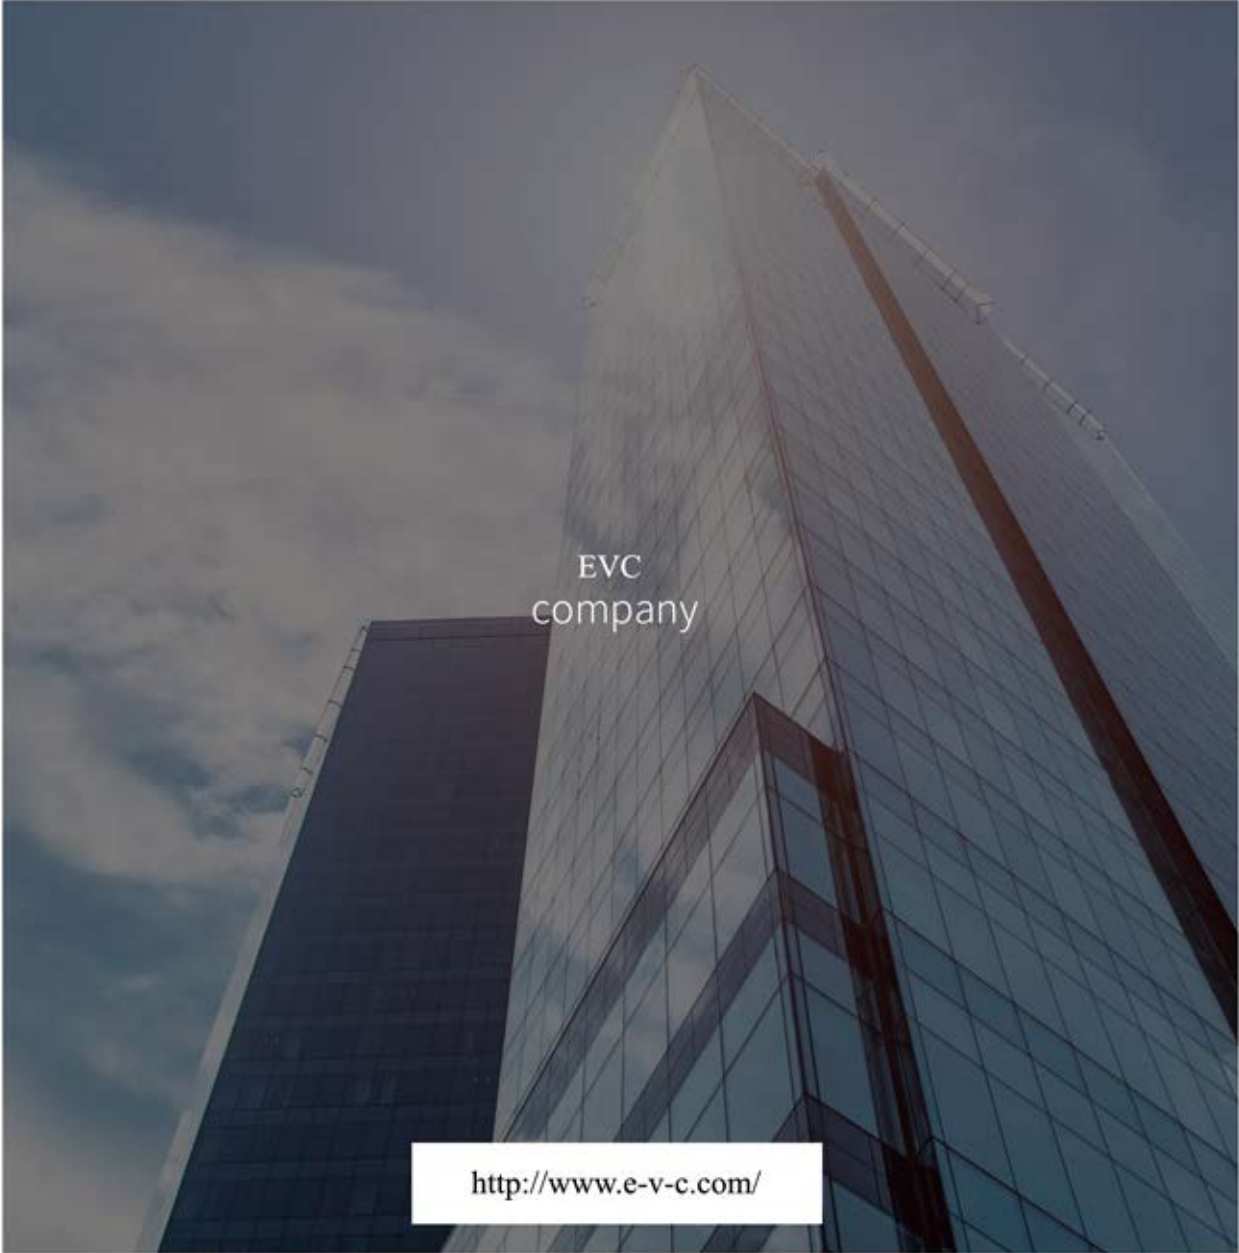

20*40mm wood keel middle distance 600*600mm, 80mm from the top surface

4. Determine the installation position of the optical fiber machine and install the starry roof according to the drawings

The optical fiber machine is installed on the top surface and the position is random

5. Fixed starry roof

Use a nail gun to secure the starry roof to the wooden square.
